1. Foam Paper Lanterns

1. Get foam paper (12"x 18") in a solid color and help your kid to fold it into half – lengthwise – in order to get a rectangle.

2. Now using a ruler, draw a 2-inch wide margin along the border of the paper. Now cut equal strips on the paper at 90 degrees with the folded spine. Do not cut through the border.

3. Make colorful designs and motifs with sequins or paints as per your wish on the border.

4. After the decoration has dried, unfold the paper and staple the two top and bottom edges together so that the entire thing looks like a round cylinder.

5. Make a separate strip of paper and staple it to the cylinder to make a handle. Use this lantern to cover bulbs to make them look like colorful, decorative lampshades. You can add tassels on the lower rim of the lantern to make it more festive.
